PROFESSIONAL GUIDANCE TO ADD A NEW DIMENSION TO YOUR HEALTH

WHY PERSONAL TRAINING?

Are you bored with your workouts, losing motivation, looking for new skills and techniques, or just starting an exercise program?

Our degreed and certified fitness professionals can help you train in a way you never thought possible—giving you the motivation, guidance, and support you need, which will allow you to reach new heights in your fitness goals and experience maximum benefits.

BENEFITS

Personal training has many benefits which include weight loss, increased muscular strength and decreased cholesterol and blood pressure. While many only consider these benefits, personal training offers a multitude of other benefits such as: learning new exercises to incorporate into your own workouts, knowledge of safe and efficient techniques, building effective workouts, and breaking through plateaus.

PAR-Q & YOU

(A Questionnaire for People Aged 16 to 69)

Regular physical activity is fun and healthy, and increasingly more people are starting to become more active every day. Being more active is very safe for most people. However, some people should check with their doctor before they start becoming much more physically active.

If you are planning to become more physically active than you are now, start by answering the seven questions below. If you are between the ages of 15 and 69, the PAR-Q will tell you if you should check with your doctor before you start. If you are over 69 years of age, and you are not used to being very active, check with your doctor first. Common sense is your best guide when you answer these questions. Please read the questions carefully and answer each one honestly: check YES or NO.

Yes	No	
<input type="checkbox"/>	<input type="checkbox"/>	1. Has your doctor ever said that you have a heart condition AND that you should only do physical activity recommended by a doctor?
<input type="checkbox"/>	<input type="checkbox"/>	2. Do you feel pain in your chest when you do physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	3. In the past month, have you had chest pain when not doing physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	4. Do you lose balance because of dizziness or do you ever lose consciousness?
<input type="checkbox"/>	<input type="checkbox"/>	5. Do you have a bone or joint problem that could be made worse by a change in your physical activity?
<input type="checkbox"/>	<input type="checkbox"/>	6. Is your doctor currently prescribing drugs (for example, water pills) for your blood pressure or heart condition?
<input type="checkbox"/>	<input type="checkbox"/>	7. Do you know <u>any other reasons</u> why you should not do physical activity?

IF YOU ANSWERED . . .

. . . YES to one or more questions

Talk with your doctor by phone or in person BEFORE you start becoming more physically active or BEFORE you have a fitness appraisal. Tell your doctor about the PAR-Q and which questions you answered YES.

- You may be able to do any activity you want – as long as you start slowly and build up gradually. Or, you may need to restrict your activities to those which are safe for you. Talk with your doctor about the kinds of activities you wish to participate in and follow his/her advice.
- Find out which community programs are safe and helpful to you.

. . . NO to all questions above

If you answered NO honestly to all PAR-Q questions, you can be reasonably sure that you can:

- Start becoming more physically active – begin slowly and build up gradually. This is the safest and easiest way to go.
- Take part in a fitness appraisal – this is an excellent way to determine your basic fitness so that you can plan the best way for you to live actively.

NOTE: If your health changes so that you then answer YES to any of the above questions, tell your fitness or health professional. Ask whether you should change your physical activity plan.

WHEN TO DELAY BECOMING MORE ACTIVE:

- If you are not feeling well because of a temporary illness such as a cold or fever – wait until you feel better; **OR**
- If you are or may be pregnant, talk to your doctor before you start becoming more active.

Informed use of the PAR-Q: The Canadian Society for Exercise Physiology, Health Canada, and their agents assume no liability for person(s) who undertake physical activity, and if in doubt after completing this questionnaire, consult your doctor prior to physical activity.

Policies & Agreement

Appointment Cancellation Policy: A 24-hour advance notice is required if cancelling a personal training appointment. AdvantageHealth reserves the right to retain 100% of the session fee if sufficient notice is not given. Trainers and clients schedule their own appointments.

Day Money Back Guarantee: If for any reason you are not completely satisfied with your Personal Training experience within the first 15 days, a full refund is given with a written or e-mail cancellation. After the 15 Day Money Back Guarantee, sessions are non-refundable. Sessions are transferrable to another Fitness at SPS Tower Member.

Expiration Date of Training Sessions: For package sessions, If you purchase 1 session or 4 sessions there will be a 3-month expiration from the date of purchase. If you purchase 8 sessions or 12 sessions there will be a 6-month expiration from the date of purchase. Month-to-Month sessions do not roll over.

Waiver: I acknowledge I have signed a Waiver of Liability and Hold Harmless agreement when I joined Fitness at SPS Tower and understand the inherent risks in participating in a program of strenuous exercise including, but not limited to, abnormal blood pressure, muscle soreness, fainting, heart attack or death.

First Session: The majority of a client's first session may be a consultation and/or fitness assessment with the trainer. This consultation is designed to set goals, learn more about the client and provide education.

Medical Release: After reviewing a client's health history and/or any fitness assessment results, it may be determined that a medical release is required before personal training can continue.

Exercise Safety: The client certifies that all answers to questions in the health history and PAR-Q are true and complete to the best of their knowledge. It is the client's responsibility to notify the trainer of any changes in their health which might affect my ability to exercise safely, as well as monitoring their own physical condition throughout any sessions, and if any unusual symptoms occur, to discontinue activity and notify the trainer. The client can refuse to participate in any activity that they do not wish to do at any time during their personal training session.

Outside Personal Trainers: No outside trainers or coaches are allowed to use the facilities.

Evaluation: Once you have completed your sessions, you may be asked to complete a brief evaluation to determine quality of the services rendered by the personal trainer.

I certify that I have fully read and understand the policies and terms of this agreement and will comply with the contents herein. I assume all risk for my health and I know that I may discontinue training at any time without a refund.
